

SOLD! RAVENOUS II - 82' OYSTER DECK SALOON

Wellington Yacht Partners is pleased to announce the sale of RAVENOUS II, the 82' Oyster Marine Deck Saloon. Dolf Haffenreffer of Wellington Yachts represented the Seller and Dirk Johnson of Perini Navi USA acted as the Buyer's Agent.

RAVENOUS II, an exquisite blend of form meets function, was built by a seasoned yachtsman as his second Oyster. His objective was to create a vessel that was safe and comfortable for his large sailing family, with a shallow draft to allow for exploring the Chesapeake Bay and islands, while still presenting as a worthy competitor in Oyster Regattas. No expense was spared in the build, and all objectives were exceeded with flying colors.

Seamlessly incorporating both classic and contemporary, RAVENOUS II is an iconic presence on both the U.S. eastern seaboard and Caribbean circuit. She sports a Flag Blue hull and a white carbon mast with V-boom, a head-turner in any port. Her African-inspired interior features maple joinery with rich mahogany accents, beautiful teak sole boards and plush upholstery, all of which combine to accentuate the light, airy interior. Her upper salon and nav area offer expansive views via the deck saloon windows. The equally inviting lower saloon serves as a breakfast nook, reading and lounge area. Her three generous en-suite guest cabins, equipped with hideaway pipe berths for additional accommodations, offer comfort, storage and entertainment for owner and guests. Generous crew quarters and galley forward naturally provide privacy and separation while ensuring the boat is configured for silver service.

The versatile deck layout allows for multiple functions, from a competitively-crewed race program to a shorthanded passage. Her spacious cockpit is outfitted to host a multitude of guests for après-sail cocktails to spontaneous alfresco dining on a moonlit evening. Her carefully-chosen top-of-the-line deck hardware perfectly delivers performance when the owner wants. Crewed and maintained by a knowledgeable captain, and refit to the highest standards.
